

DARSHAN R

Full Stack Developer

GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Passionate Full Stack Developer focused on building scalable web applications and AI-powered solutions. Strong foundation in JavaScript, Python, databases, and modern web technologies with a continuous learning mindset.

WORKING EXPERIENCE

ZeTheta Algorithms | June 2026 – July 2026

Full Stack Engineer Intern

- Developed an Event-Driven Notification Engine using React, Node.js, Express.js, PostgreSQL, RabbitMQ, Socket.IO, and Docker.
- Implemented real-time notifications with user preferences, DND rules, quiet hours, and frequency limits.
- Built a responsive React dashboard and containerized the application using Docker and Docker Compose.

Orinson Technologies Private Limited | May 2026

Backend Development Intern

- Developed RESTful backend applications using Node.js, Express.js, JavaScript, and SQLite.
- Built a Task Manager API with JWT authentication, CRUD operations, filtering, sorting, and pagination.
- Developed a Library Management API with database integration, input validation, and structured error handling.

PROJECTS

AI HEALTHCARE ASSISTANT

Node.js, Express.js, JavaScript, Google Gemini API

- Developed an AI-powered healthcare chatbot that analyzes user symptoms and provides intelligent health guidance using Google Gemini API.
- Implemented dynamic follow-up questions, symptom severity analysis, and temperature validation to deliver personalized responses.

TOURISM WEBSITE

Django, PostgreSQL, HTML, CSS, Bootstrap

- Developing a responsive tourism website using Django and PostgreSQL with dynamic templates and database integration.
- Building scalable backend functionality while implementing responsive UI and Django best practices.
